**(# 1)**

Page 10 Line 28 after the (.)-

For example, Congress has not provided sufficient resources to keep up with aging infrastructure of public housing. As a result, many public housing authorities around the country need to address building infrastructure needs in order to improve resident health and safety. The Committee recognizes the impact that such capital needs have on the health and well-being of residents and will seek ways to ensure capital repairs are made to improve these housing units.
