2 **REQUIREMENTS RELATED TO DERIVATIVES**
3 **EXPOSURES.**

4 (a) STUDY.—The Financial Stability Oversight Coun-
5 cil shall conduct a study of the likely effects that dif-
6 ferences between the United States and other jurisdictions
7 in implementing the derivatives credit valuation adjust-
8 ment (in this section referred to as “CVA”) capital re-
9 quirement would have on—

- 10 (1) United States financial institutions that
11 conduct derivatives transactions and participate in

14 (3) international derivatives markets.

15 (b) CONTENT.—The study required by subsection (a)
16 shall include—

18 (A) the extent to which there are dif-
19 ferences in the approaches that the United
20 States and other jurisdictions are taking re-
21 garding implementation of the CVA capital re-
22 quirement, and the nature of the differences;
23 (B) the impact that the differences would
24 have on—

25 (i) United States financial institutions
26 that conduct derivatives transactions and

1 participate in derivatives markets, includ-
2 ing their ability to serve end users of de-
3 rivatives;

4 (ii) pricing and other costs of, and
5 services available to, end users of deriva-
6 tives in the United States and other juris-
7 dictions; and

8 (iii) the competitiveness of United
9 States financial institutions and United
10 States derivatives markets, including the
11 extent to which differences in the CVA
12 capital requirement could shift derivatives
13 business among jurisdictions; and

14 (C) the interaction between differing CVA
15 capital requirements and margin rules; and

16 (2) recommendations regarding steps that the
17 Congress and the Federal financial regulatory agen-
18 cies that comprise the Financial Stability Oversight
19 Council should take to—
