1 SEC. 2. SENSE OF CONGRESS ON FUNDING THE LOAN-LOSS RESERVE FUND FOR SMALL DOLLAR LOANS.

The sense of Congress is the following:

(1) The Community Development Financial Institutions Fund (the “CDFI Fund”) is an agency of the Department of the Treasury, and was established by the Riegle Community Development and Regulatory Improvement Act of 1994. The mission of the CDFI Fund is “to expand economic opportunity for underserved people and communities by supporting the growth and capacity of a national network of community development lenders, investors, and financial service providers”. A community development financial institution (a “CDFI”) is a specialized financial institution serving low-income communities and a Community Development Entity
(a “CDE”) is a domestic corporation or partnership that is an intermediary vehicle for the provision of loans, investments, or financial counseling in low-income communities. The CDFI Fund certifies CDFIs and CDEs. Becoming a certified CDFI or CDE allows organizations to participate in various CDFI Fund programs as follows:

(A) The Bank Enterprise Award Program, which provides FDIC-insured depository institutions awards for a demonstrated increase in lending and investments in distressed communities and CDFIs.

(B) The CDFI Program, which provides Financial and Technical Assistance awards to CDFIs to reinvest in the CDFI, and to build the capacity of the CDFI, including financing product development and loan loss reserves.

(C) The Native American CDFI Assistance Program, which provides CDFIs and sponsoring entities Financial and Technical Assistance awards to increase lending and grow the number of CDFIs owned by Native Americans to help build capacity of such CDFIs.

(D) The New Market Tax Credit Program, which provides tax credits for making equity in-
vestments in CDEs that stimulate capital investments in low-income communities.

(E) The Capital Magnet Fund, which provides awards to CDFIs and nonprofit affordable housing organizations to finance affordable housing solutions and related economic development activities.

(F) The Bond Guarantee Program, a source of long-term, patient capital for CDFIs to expand lending and investment capacity for community and economic development purposes.

(2) The Department of the Treasury is authorized to create multi-year grant programs designed to encourage low-to-moderate income individuals to establish accounts at federally insured banks, and to improve low-to-moderate income individuals’ access to such accounts on reasonable terms.

(3) Under this authority, grants to participants in CDFI Fund programs may be used for loan-loss reserves and to establish small-dollar loan programs by subsidizing related losses. These grants also allow for the providing recipients with the financial counseling and education necessary to conduct transactions and manage their accounts. These loans provide low-cost alternatives to payday loans and other
nontraditional forms of financing that often impose excessive interest rates and fees on borrowers, and lead millions of Americans to fall into debt traps. Small-dollar loans can only be made pursuant to terms, conditions, and practices that are reasonable for the individual consumer obtaining the loan.

(4) Program participation is restricted to eligible institutions, which are limited to organizations listed in section 501(c)(3) of the Internal Revenue Code and exempt from tax under 501(a) of such Code, federally insured depository institutions, community development financial institutions and State, local, or Tribal government entities.

(5) According to the CDFI Fund, some programs attract as much as $10 in private capital for every $1 invested by the CDFI Fund. The Administration and the Congress should prioritize appropriation of funds for the loan loss reserve fund and technical assistance programs administered by the Community Development Financial Institution Fund.
