\_\_\_\_\_  
**IN THE HOUSE OF REPRESENTATIVES**

Mr. MCEACHIN introduced the following bill; which was referred to the Committee on \_\_\_\_\_

\_\_\_\_\_  
**A BILL**

To amend the Lead-Based Paint Poisoning Prevention Act to provide for additional procedures for families with children under the age of 6, and for other purposes.

1       *Be it enacted by the Senate and House of Representa-*  
2       *tives of the United States of America in Congress assembled,*

3       **SECTION 1. SHORT TITLE.**

4       This Act may be cited as the “Lead-Safe Housing  
5 for Kids Act of 2021”.

6       **SEC. 2. CONGRESSIONAL FINDINGS.**

7       The Congress finds that—

1 (1) according to the Centers for Disease Con-  
2 trol and Prevention (CDC), in 2014 approximately  
3 995,600 or 4 percent of children under the age of  
4 6 in the United States had elevated blood lead levels  
5 above the CDC reference value of 5 micrograms per  
6 deciliter ( $\mu\text{g}/\text{dL}$ );

7 (2) there is no safe level of lead poisoning;

8 (3) according to the CDC, the effects of lead  
9 poisoning are immediate and permanent—childhood  
10 exposure to lead, even at very low levels, can have  
11 lifelong consequences, including decreased IQ and  
12 cognitive function, developmental delays, and behav-  
13 ioral problems;

14 (4) higher exposures to lead at a young age can  
15 cause seizures, coma, and even death;

16 (5) according to the National Housing Law  
17 Project, there are over 90,400 children in the United  
18 States living in housing assisted under the Housing  
19 Choice Voucher Program who have lead poisoning  
20 and there are an additional 340,000 children living  
21 in federally assisted housing who are at risk;

22 (6) under current program rules, children  
23 whose families participate in the Housing Choice  
24 Voucher Program must develop lead poisoning be-  
25 fore a lead hazard risk assessment occurs;

1           (7) Columbia University estimates the potential  
2 societal costs of lead poisoning in the Housing  
3 Choice Voucher Program to be almost \$1.2 billion;  
4 and

5           (8) while some localities have required property  
6 owners to conduct risk assessments and abate lead  
7 when a child under the age of 6 will reside in a  
8 dwelling unit, there has been evidence that such poli-  
9 cies led to augmented instances of housing discrimi-  
10 nation on the basis of familial status, making hous-  
11 ing opportunities less available for families with chil-  
12 dren and increasing the risk of homelessness for  
13 such families.

14 **SEC. 3. AMENDMENTS TO THE LEAD-BASED PAINT POI-**
